Since 2010

Original Equipment Manufacturer of
Special Purpose Machines in Hygiene Sector

Certificate

This is to Certify that
AARYA TECHNOLOGIES
Wing A, Flat No. 4, Sayaji Darshan, Radha Nagar, Behind Swami Samarth Kendra,
Makhmalabad, Panchavati, Nashik, Maharashtra - 422003, India
is in Compliance with

**Non-sewered Sanitation Systems-
Refabricated Integrated Treatment Units
ISO 30500:2018**

for the following scope:

Manufacturing of Electronic ECO Toilet, Bio-Digester, Organic Waste Composter,
Medical Waste Incinerator, Reverse Vending Machine, Portable Toilet,
Modular Toilet with brand name of "Smart Buddy".

Certificate No.: NSSS/02274/0021
Original Certificate Date: 26-June-2021
Issue Date: 26-June-2021
Expiry Date: 25-June-2024

Certificate of Compliance

We hereby declare that the technical file of:

Manufacturer :
AARYA TECHNOLOGIES

4A, SAYAJI DARSHAN, BEHIND SWAMI KENDRA, MADHUBAN COLONY,
MACHMALABAD NASHIK, PANCHAVATI, NASHIK - 422003, MAHARASHTRA, INDIA

Has been assessed by Optimum Certifications Inc. and found to be

in compliance with meeting the requirements of:

Machinery Directive 2006/42/EC

The certificate refers to above covering the following products:

SANITARY PAD VENDING MACHINE (INCINERATOR)

SANITARY PAD DESTROYER MACHINE (INCINERATOR)

ECO-TOILET WITH BIO-DIGESTER

E-TOILET WITH BIO-DIGESTER

SPECIAL PURPOSE MACHINE

The certification body has performed an audit of the above product quality system covering the design,
manufacture and final inspection of certified product. The quality system has been assessed, approved
and is subject to surveillance according to Machinery Directive 2006/42/EC

Date of Certification: 31st July 2020
1st Surveillance Due: 30th July 2021
2nd Surveillance Due: 30th July 2022
Certificate Expires Date: 30th July 2023
(Subject to the company maintaining its system to the required standard)

Certificate Number : CE/300719075

Validity of this certificate can be verified at www.oicert.com

ABOUT COMPANY

SMART BUDDY represent more than one and half decade of pioneering enterprises headquartered in Nashik, Maharashtra, India. We are renowned for introducing Several Special Purpose Machines in India for first time. Our main line of business is manufacturing & supply of a comprehensive array of eco-friendly hygiene products. The Director of company have considerable experience in industrial automation & hygiene products of 20+ years. Our products are ELECTRONIC ECO TOILET, BIO-DIGESTER, ORGANIC WASTE COMPOSTER, REVERSE VENDING MACHINE & COMPUTER KIOSK. These are fabricated using advanced machines as per the international standards to ensure their reliable functioning.

We focus on the quality of the product & render timely service so as to achieve full customers satisfaction. Our business is driven by simplistic indigenous technology that is accessible, flexible, low cost & reliable, is harvested from our passion of innovation & commitment to research & development. We market products for personal hygiene. Our uniqueness is to develop products that address every single requirement in most cost effective way. We never compromise on the quality of our products.

SMART BUDDY is specialized in research & development that focus mainly on manufacturing wide range of eco-friendly hygienic products with international quality. The company is strong believer in Total Quality Management, Customer Focus & Team Work, which led to its products having won several awards. We are certified with ISO 9001:2015, CE & MPCB also having brand name with registered trade mark 'SMART BUDDY' & E²T (ELECTRONIC ECO TOILET).

SMART BUDDY is authorized OEM approved by Quality Council of India (QCI) on Government e-Marketplace (GeM) portal with ratings of 4.7+.

TOILET Electronic ECO Toilet

E²T (Electronic ECO Toilet) are maintainable public toilets which have self-cleaning mechanisms. Even if the user forgets to flush the toilet, the toilet will get flushed automatically. In addition, a floor and wall cleaner will function automatically after four to ten visits. Fans and lights will start functioning only when the toilet is in use. There is also an automatic pre-flush when a person enters inside. It has power and water backup for its users in case of sudden power outage or water discontinuation. The toilets will be disabled for any new entry when backup or water gets depleted. The entry to the toilets can be restricted with coins or smart-cards or more generally, using button press. Women friendly E²T (Electronic ECO Toilet) will have women-friendly features such as Sanitary Pad Vending Machine, Incinerators to destroy used sanitary pad.

Where it can be installed ?

- Highways
- Malls
- Airports
- Railway Stations
- Tourist Places
- Smart City

Major Features

- Water Saving
- Floor Hygiene with Pressurized Cleaning
- Integration of Renewable Energy
- Waste Treatment
- IoT Smart Monitoring & SMS intimation
- 24X7 surveillance With voice assistance
- Anti-theft alarm
- Revenue Generation Model

Structure and Fabrication

- Stainless steel interiors 304
- ACP Panel Exterior
- 3 Layer Wall Construction
- Tamper Proof
- Corrosion Free
- Rugged and long lasting material

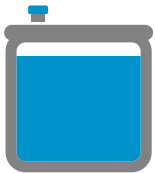

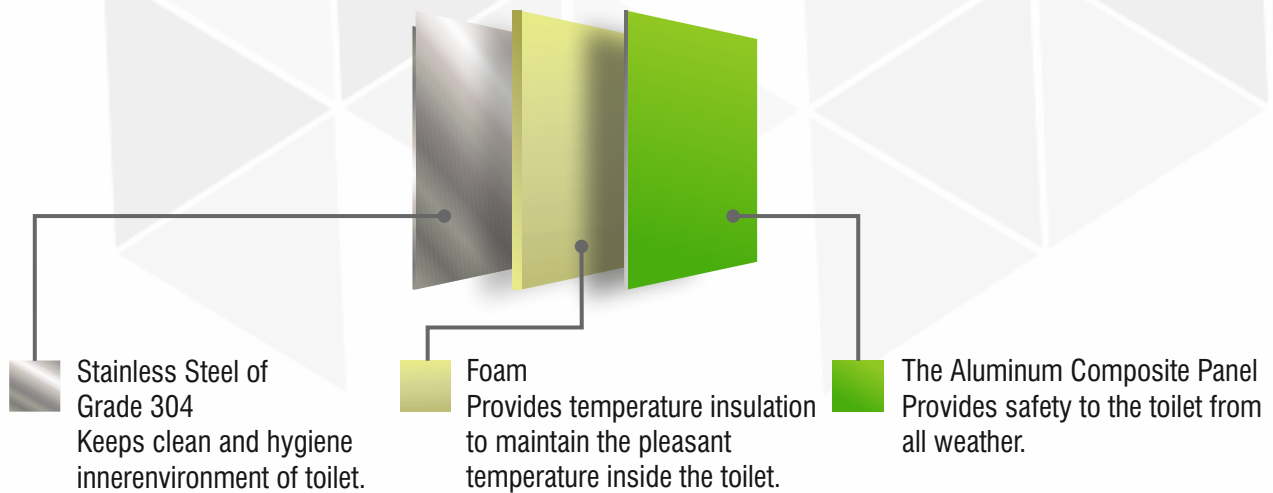

Model No.	Variant of the Toilet
SB - E2T - MDL1	Push button
SB - E2T - MDL2/3	Token/Coin
SB - E2T - MDL4/5	Smart Card & Coin
Model No.	Variant of the Urinals
SB - CU - M	Male Community Urinals
SB - CU - F	Female Community Urinals

Environmental & Social Impact

- Reduction of Carbon Footprint
- Healthcare Cost Reduction
- Job Creation
- Environmental Stewardship
- Reduced Open Defecation
- Community Empowerment

Unique Features

OVERHEAD WATER TANK
to fulfill daily need of 500 liter quantity.

UPS
to provide battery backup for almost a week long.

24x7 surveillance system and Anti-Theft Alarm

GSM / GPRS
technology to analyze the data through web enable platform.

AUTO TOILET CLEANING SYSTEM
Pressurize cleaning of floor and wall after every use

PORTABLE - FRP TOILET

Leading Manufacturer of frp labour toilet with water tank, frp indian toilet with septic tank, frp portable event toilet, frp western executive toilet, frp portable washroom We, at Aarya Technologies, are in an enviable position of being able to provide really amazing and powerful portable cabins and septic tanks. Our offered products are made by us, with the latest working manufacturing machinery available to us. With the help of our range products, finding Portable cabin manufacturer in Maharashtra, has become easy for now.

Where it can be installed ?

- Highways
- Malls
- Airports
- Railway Stations
- Tourist Places
- Smart City

Major Features

- Portable
- long lasting
- Unbreckable
- Overhead tank
- Revenue Generation Model

Structure and Fabrication

- FRP
- 3x3 feet/ user define
- Tamper Proof
- Corrosion Free
- Rugged and long lasting material

Model No.	Variant of the Toilet
AT - FRP - S1	SINGLE SEATER
AT - FRP - S2	TWO SEATER
AT - FRP - UR	URINAL

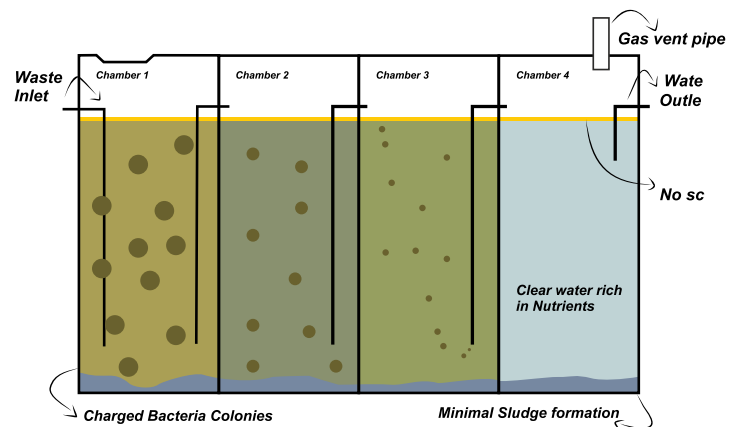

BIO-DIGESTER

Psychrotrophic bacteria have the natural capability to survive on waste. Anaerobic Bio-digestion Technology uses these bacteria to break down the waste matter into usable water and gas through an anaerobic process. The zero-waste process is not limited by place or temperature and does not need sewerage network or Sewage Treatment Plant (STPs). It is an on-site, independent system and does not require any major infrastructure.

The Revolutionary on-site technology consists of two parts:

1. The Bacteria formulation known as Anaerobic Microbial Inoculum (AMI or DRDO bacteria).
2. A specially designed tank called the Bio-Digester Tank (BDT).

The BDT is connected to the outlet of the toilet and can be installed either above or below the ground. The sewage matter flows into the BDT from the toilet and AMI treats it (digests it) into an effluent that is safe to discharge. The human waste matter is broken down into water, carbon dioxide and methane (biogas).

HOW BIO-DIGESTER WORKS

When it comes to usability, BDT scores on several parameters :

High on Hygiene	Complete Convenience	Easy to Maintain
BDT reduces pathogens by >99% and organic matter by 99%.	No moving parts means zero maintenance.	No foul smell in toilet from system.
The effluent released is non-toxic and usable for irrigation and gardening purposes.	No de-sludging or cleaning needed.	Effluent is free from odour and solid waste.
Commercially available Toilet cleaners can be used.	No clogging of the Bio-Digester Tank.	No infestation of cockroaches and flies.

ORGANIC WASTE COMPOSTER

Composting Machine operates with a simple mechanism that breaks down the complex biodegradable waste into its simpler forms, and converts into compost. The machine is empowered by a geared motor for mixing & churning purpose and high speed motor to crush the waste material.

Product Features

- Entire composting process in one machine.
- High quality organic compost ready to use within 24-36 hours.
- Stainless Steel / Mild Steel with epoxy coating Fabrication for maximum durability.
- No noise, No odor and No maintenance required.
- Fully automatic yet compact.
- In-built temperature management.
- Compact, safe and easy to operate.

Area of Applications:

- Buildings
- Educational Institutes
- Vegetable market
- Small township
- Marriage Halls
- Malls
- Industries
- Hotels

Model No.	Capacity (KG/Day)

PET BOTTLE SHREDDER REVERSE VENDING MACHINE

PET Bottle Shredder offers an alternative way to recycle bottled containers in an efficient, convenient, and incentivizing way. This mechanism is easy to manage, conveniently placed, efficient, and resourceful at recycling. Due to its simplistic process and positive intention of helping the environment rather than being uselessly dumped in garbage bins. PET Bottle Shredder is becoming popularized worldwide.

The reverse vending machine (RVM) is a device that takes empty and used bottles or cans, then returns money or other forms of incentivization to the recycler, depending on the quantity of receptacles recycled.

Product Features

- Suitable for Disposal of Municipal Waste such as PET bottle, Aluminium cans & Tetra pack by shredding.
- Material grabbed between two counter rotating shaft
- Material of body: Mild Steel
- Safety Features :
 - a. Door open cut off switch
 - b. Motor should be trips off in case of waste loading lid is open
 - c. Short circuit protection
- Material of the cutter of shredder : Hardened Special Alloy Steel
- Object Verification System

ADVANCE FEATURES

- 21" User Interactive Touch screen
- E-Wallet Cashback
- App based / Cloud Controlling
- IoT Integration
- 24X7 Live Machine tracking

Where it can be installed ?

- Bus Stands
- Malls
- Airports
- Railway Stations
- Tourist Places
- Garden
- Events
