

SOLID WASTE MANAGEMENT & CIRCULAR RECYCLING OEM

SMART BUDDY ORGANIC WASTE COMPOSTER (OWC)

Fully Automated In-Vessel Rapid Aerobic Composting Machine (Converts Waste in 24 Hours)

SB-OWC Series (25 - 2000 kg/day)

Smart Buddy SB-OWC-300 Heavy Duty SS 304 Composting Machine

Product & Technology Overview

The Smart Buddy Organic Waste Composter (OWC) is an advanced, fully automatic in-vessel aerobic composting system designed to treat biodegradable food and municipal waste on-site. Using special thermophilic microbial culture, precision heating, and continuous mechanical churning, it breaks down organic matter and yields rich, dry compost in just 18 to 24 hours with an 85-90% volume reduction.

Key Operational Highlights

- Converts biodegradable organic waste into compost in 18-24 hours.
- Heavy-duty Stainless Steel 304 (SS 304) internal chamber and exterior.
- Reduces waste volume by 85% - 90%, minimizing landfill disposal costs.
- Built-in heating management (50-65°C) destroying pathogens and weed seeds.
- 100% Odorless operation with integrated bio-filter and air circulation.
- PLC / Touchscreen based fully automatic cycle with safety interlocks.

Accepted Waste Materials & Compost Output

• Fruits & Vegetables Scrap

Biodegradable organic feed

• Cooked & Leftover Food

Biodegradable organic feed

• Tea Leaves & Coffee Grounds

Biodegradable organic feed

• Dry Garden Leaves & Flowers

Biodegradable organic feed

• Eggshells & Meat Scraps

Biodegradable organic feed

• Shredded Cardboard & Paper

Biodegradable organic feed

• Agricultural & Plant Biomass

Biodegradable organic feed

• Bakery & Kitchen Waste

Biodegradable organic feed

Core Value Proposition & Environmental Benefits

1. 85-90% Volume Reduction

Drastically reduces the weight and volume of garbage transported to municipal dump yards.

2. Fast 24-Hour Cycle Time

Converts daily collected organic kitchen waste into ready-to-use bio-manure within 18 to 24 hours.

3. Odourless & Clean Process

Aerobic composting and thermophilic microbes operate without unpleasant smells, flies, or pests.

4. Nutrient-Rich Bio-Fertilizer

Produces high-grade organic compost rich in N-P-K nutrients, perfect for organic farming and landscaping.

Approved Waste Management Technology for SWM Rules 2016 & Swachh Bharat Mission

- Direct OEM Fabrication in Nashik, Maharashtra
- Over 300+ Installations across Municipalities, Townships & Hotels
- Complies with Solid Waste Management (SWM) Rules 2016 for Bulk Waste Generators
- Complete Life-Cycle AMC, Microbial Culture Supply, and Operator Training Support

DETAILED TECHNICAL SPECIFICATIONS: SMART BUDDY SB-OWC SERIES

TECHNICAL PARAMETER	ENGINEERING SPECIFICATION / STANDARD DETAILS
Technology	Aerobic Thermophilic Microbial In-Vessel Rapid Composting
Body Material	High-Grade Stainless Steel 304 (Chamber & Outer Cover) / Optional Epoxy Coated MS
Processing Time	18 to 24 Hours per batch (Continuous daily batch processing)
Volume Reduction	85% to 90% organic waste volume reduction
Operating Temperature	50°C to 65°C (Eliminates harmful pathogens, bacteria & weed seeds)
Mixing Mechanism	Heavy Duty Bi-Directional Ribbon Churner with High-Torque Geared Motor
Shredding System	In-built high-speed crusher/shredder blade for fast waste size reduction
Control Automation	Fully Automatic PLC Controller with Digital Touchscreen / Indicator Lamps
Safety Protections	Top Lid Safety Interlock (Auto Stop on open), Emergency Stop, Overload Trip
Heating Elements	Ceramic / Silicon Heating Pads with Intelligent Thermal PID Controllers
Odor Control	Bio-Filter / Activated Carbon Exhaust Filter with Forced Air Blower
Output Quality	Homogeneous, dry, dark brown nutrient-rich organic compost / soil conditioner

Standard Model Range & Sizing Guide (25 kg/day to 2000 kg/day)

Model Code	Capacity (kg/Day)	Power Rating	Dimensions (LxWxH)	Ideal Application
SB-OWC-25	25 kg/day	1.5 kW / 230V	900 x 600 x 850 mm	Small Cafes, Clinics, Villas
SB-OWC-50	50 kg/day	2.2 kW / 230V	1200 x 750 x 950 mm	Restaurants, Small Hostels
SB-OWC-100	100 kg/day	3.0 kW / 415V	1500 x 850 x 1100 mm	Societies (50-100 flats), Hotels
SB-OWC-300	300 kg/day	5.5 kW / 415V	1950 x 950 x 1250 mm	Large Societies, Tech Parks
SB-OWC-500	500 kg/day	7.5 kW / 415V	2300 x 1100 x 1400 mm	Colleges, Marriage Halls, Malls
SB-OWC-1000	1000 kg/day	12.0 kW / 415V	3000 x 1400 x 1650 mm	Townships, Vegetable Markets
SB-OWC-2000	2000 kg/day	18.5 kW / 415V	Custom Modular Plant	Municipal SWM Processing Plants

Recommended Installation Sectors & Bulk Waste Generators

● Residential Societies & Townships	● Hotels, Resorts & Restaurants	● IT Parks & Corporate Cafeterias	● Vegetable & Fruit Mandis
● Universities, Colleges & Schools	● Marriage Halls & Banquet Venues	● Hospitals & Medical Campuses	● Municipal Decentralized Plants

HOW TO ENQUIRE & ORDER SMART BUDDY COMPOSTING MACHINES

Share your daily organic kitchen waste quantity (kg/day), available site electrical load (Single Phase / 3-Phase), and installation footprint. Our engineering team prepares turnkey layout drawings, ROI calculations, and complete techno-commercial proposals.
